

PUBLIC NOTICE

The Iowa Department of Natural Resources (DNR) is proposing to renew the Title V Operating Permit to IPL-Alliant Energy Centerville Combustion Turbine Station. This facility is located at 1625 North 14th Street, Centerville, Iowa. DNR is currently reviewing an application for Title V renewal submitted by IPL-Alliant Energy Centerville Combustion Turbine Station to operate their existing Electric Services facility.

IPL-Alliant Energy Centerville Combustion Turbine Station is required to obtain a Title V Operating Permit pursuant to 567 Iowa Administrative Code (IAC) 22.101. This facility has the potential to emit the following air pollutants annually:

PM-2.5 (particulate matter 2.5 microns or less in diameter): 51.01 tons
PM-10 (particulate matter ten microns or less in diameter): 51.01 tons
Particulate Matter: 331.88 tons
Sulfur Dioxide: 202.45 tons
Nitrogen Oxides: 249 tons
Volatile Organic Compounds: 7.73 tons
Carbon Monoxide: 19.45 tons
Lead: 0 tons
Hazardous Air Pollutants: 0.68 tons

Based on the information provided in the Title V Operating Permit application, the DNR has made an initial determination that the facility meets all the applicable criteria for the issuance of an operating permit specified in 567 IAC 22.107.

A copy of the Fact Sheet (which describes the facility and summarizes the permit review) and a copy of the draft Title V Operating Permit are available for public inspection at the:

Drake Public Library
115 Drake Avenue
Centerville, IA 52544
Phone: 641-856-6676

These documents are also available on the Air Quality Bureau's website at:
<http://www.iowadnr.gov/InsideDNR/RegulatoryAir/OperatingPermits/DraftFinalPermits.aspx>
For additional information or for a copy of the draft permit or fact sheet contact:

Julie Duke
Iowa Department of Natural Resources
Air Quality Bureau
7900 Hickman Rd., Suite 1
Windsor Heights, Iowa 50324
Phone: (515) 725-9539
E-mail: julie.duke@dnr.iowa.gov

A complete record of the permits review, including the permit applications and the draft permits, is available for public inspection Monday-Friday, 8:00 a.m. - 4:30 p.m., at the DNR address shown above.

The public comment period for the proposed permit will run from 03/10/2017 through 04/09/2017. The beginning date of this public comment period also serves as the beginning of the U.S. Environmental Protection Agency's (EPA) 45-day review period, provided the EPA does not seek a separate review period. During this time, anyone may submit written comments on the permit. Mail signed comments to Julie Duke at the DNR address shown above.

Written requests for a public hearing concerning the permit may also be submitted during the comment period. Any hearing request must state the person's interest in the subject matter, and the nature of the issues proposed to be raised at the hearing. DNR will hold a public hearing upon finding, on the basis of requests, a significant degree of relevant public interest in the draft permits. Mail hearing requests to Julie Duke at the DNR address shown above.

DNR will keep a record of the issues raised during the public participation process, and will prepare written responses to all comments received. The comments and responses will be compiled into a responsiveness summary document. After the close of the public comment period, DNR will make a final decision on the renewal application. The responsiveness summary and the final permits will be available to the public upon request.
